Phone: 1-646-876-9923; Meeting ID: 948 6177 6056

AGENDA ITEMS

Call to order, Welcome, Introductions - *Jenn Volk, Chair*

Announcements - Meghan Noe Fellows, CIB

Center Staffing Updates

Old Business

Environmental Monitoring Plan Update, Meghan Noe Fellows , Center for the Inland Bays

- Discuss interest in forming a standing sub-committee to address priority recommendations and remove unneeded metrics, making the EMP a living document that can drive the SOB 2026

RFP for Hydrodynamic Model Development, Meghan Noe Fellows, CIB

- RFP development and process for final review

Update from the Wastewater Planning Subcommittee, Bryanna Lisiewski, CIB

Update from the Nearshore Impacts of Offshore Wind Subcommittee, Mark Nardi, USGS

New Business

New Member Presentations

New STAC members, Leslie Baggett, with AKRF, and Mollie Yacono, with DNREC's Delaware Coastal Programs section, have been invited to share about their interests and areas of expertise relevant to Delaware's Inland Bays.

The Delaware Targeting and Planning Tool (DTAP), Brittany Sturgis, DNREC

Brittany will share what the Delaware Targeting and Planning Tool is and how it can potentially be used to support restoration efforts in the Inland Bays Watershed.

Coastal Resilience Panel - Panelists Christophe Tulou (CIB), Ashley Norton (DNREC Coastal Programs Section), Danielle Swallow (UD Sea Grant), Rahm Mohan (Anchor), and Will Helt (TNC) will share their insights and perspectives regarding collectively managing for resilience under changing conditions and how the Center should consider prioritizing living resource and shoreline restoration projects in Delaware's Inland Bays.

Open

Adjourn

Next Meeting: October 20, 9:00am to 12:00pm, Hybrid - Dover or Lewes?
